

Issue: Unspecified Email Client Software Malfunction

An incident has been reported regarding an unspecified issue with the email client software. The exact nature of the problem is currently unknown, as no detailed description or error messages were provided at the time of reporting. The incident is categorized as a software issue affecting email services for caller USER_9305. Further investigation is required to diagnose the root cause and restore full email functionality.

Steps to Resolve:

- Verify incident details and confirm affected services.
- Check server/network logs for errors.
- Review recent changes or deployments.
- Attempt to reproduce in test environment.
- Check hardware and connectivity.
- Run diagnostics (ping, traceroute, netstat).
- Validate firewall and routing policies.
- Apply safe temporary mitigation.
- Update stakeholders and plan next steps.
- Perform root cause analysis and prevention plan.
